

## Smiling May Comes into Play, Making all Things Fresh and Gay (by H.A.Kamp)

### COSMINO IS DOING THE SAME:

- ◇ Our new website launch Mai 1<sup>st</sup>
- ◇ The new update version 6.10 is now available

First of all we want to say thank you for the successful information event we hosted last Tuesday in Essen/Germany. In addition to technical lectures regarding efficiency key figures in the production, data collection methods and reporting, for the first time our guests had the chance to test our software hands-on with tablet-pcs.

The new update to Cosmino<sup>®</sup> version 6.10 enables the user to connect to the Cosmino applications via internet browser. Thereby data input and information call-ups can be handled from any place with network access. An installation of software at the client is not necessary.

If you are interested, please don't hesitate to call our customer service and start planning your update.
